

GROUND SPICE

Coriander Powder

Coriandrum sativum L.

Coriander is a volume commodity where consistency, not novelty, wins the account. We buy Eagle and Scooter seed from the Ramganj Mandi and Gondal markets, clean it through gravity separation and destoning, then mill under temperature control so the volatile oil survives. Buyers who blend at scale usually specify a fixed mesh and a minimum volatile oil — we quote against both.

BOTANICAL NAME	HS CODE (GROUND)	VOLATILE OIL	STANDARD MESH
Coriandrum sativum L.	09092200	≥ 0.3 ml/100 g	60 mesh

GRADES

Grades and differentiators

GRADE	CHARACTER AND TYPICAL USE	KEY VALUE
Eagle	Bold, round, pale green seed. Highest volatile oil and the sweetest aroma. Premium blends.	Premium
Scooter	Slightly smaller, bright green. The commercial standard for masala manufacture.	Standard
Double Parrot / Badami	Deep green, high-colour seed favoured where a green cast is wanted in the blend.	Colour grade

Read this as indicative. Figures reflect standard Indian export practice and common buyer specifications for this line. The binding specification is the one written into your contract and confirmed on the pre-shipment certificate of analysis, issued by an NABL-accredited laboratory before the container is sealed. We will work to a tighter buyer specification where your process demands it.
